Reissue Applications

1. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

2. Claims 1-12, 14-27, 34-39, 48-50, and 53-60 are rejected as being based upon a defective reissue oath/declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the oath/declaration is set forth in the discussion above in this Office action.

3. This application is objected to under 37 CFR 1.172(a) as lacking the written consent of all assignees owning an undivided interest in the patent. The consent of the assignee must be in compliance with 37 CFR 1.172. See MPEP § 1410.01.

A proper assent of the assignee in compliance with 37 CFR 1.172 and 3.73 is required in reply to this Office action. A copy is included.

4. The amendment filed January 17, 2002, June 17, 2003, and December 15, 2003 proposes amendments to the claims 23-27, 34-39, 48-50, and 53-60 (previously 23-61) that do not comply with 37 CFR 1.173(b), which sets forth the manner of making amendments in reissue applications. A supplemental paper correctly amending the reissue application is required. Please also file a supplemental oath/declaration accompanying the new amendment in proper format.

5. Claims 23-27 and 34-39 are rejected under 35 U.S.C. 251 as being based upon new matter added to the patent for which reissue is sought. The added material which

Art Unit: 3732

is not supported by the prior patent is as follows: Claims 23 and 34 contain subject matter not disclosed in the original disclosure such as "by a single hand of an operator" and means responsive...for twisting" respectively.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

7. Claims 23-27, and 34-39 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 23 and 34 contain subject matter not disclosed in the original disclosure such as "by a single hand of an operator" and means responsive...for twisting" respectively.
